## Board Chairman Of SODA Urges Combined Effort

Gilbert Novotny, president of the executive board of SODA, an organization set up to coordinate area efforts toward preventing a shutdown of the Granite City Army Depot, urged today that all groups interested in retaining the depot operation work together toward that common objective.

Novotny, president of the St. Louis National Stockyards Co., said any friction between interested groups "serves only to weaken our efforts in Washington" to negotiate the military order to phase out the depot here by July, 1971.

Novotny called for area-wide coordination and cooperation in the effort to save the depot during a meeting of the SODA executive board Thursday night. The meeting followed an exchange of statements by Charles E. Hoskins III, retired Army colonel and former commander at the depot, and Mayor Donald Partney, after Hoskins said business and industry were taking no part in the effort to avert the shutdown.

The executive board approved during the meeting a resolution extending a vote of confidence to Hoskins who is executive vice-president of the "Save Our Depot Association" (SODA).

Hoskins said he would submit his resignation if there was anyone who would volunteer to devote the same time to the movement with the same promise of success that he has given but said that until that person appears he will continue as executive vice-president.

the point where the man was last seen, and the dog began working the area. Moore was found lying face down in mud under brush and yelled to the officers, "Don't turn the dog loose."

He came out with his hands up, unarmed.

In the ditched car, police found two pairs of work overalls, three red caps and a blue scarf, along with a brown bag that contained a Maryland B-Rite Super Market register slip and \$81.75 in currency and coins.

In a travel bag, police found \$460 in currency and rolled coins.

Moore, who was booked at the Granite City station on the armed robbery charge at 10 p.m., declined to make a statement.

maaks over their faces. They were carrying revolvers. A third man entered, a few seconds later, dressed like the others. He was carrying a shotgun.

Mrs. Champion was in the cashier cage and Mr. Champion was standing near the cage, when one of the trio announced — "All right everybody, don't move. I want all the money."

He grabbed the money from the check-out aisles, while another bandit entered the cashier cage and grabbed the money there, stuffing it into a duffel bag.

The bandit with the shotgun stayed near the front door. As they left, they took car keys from a woman customer who had just driven onto the parking lot. They ordered her to stay in her car.

While the holdup was in progress in the front of the store, a customer in the rear alerted a store employee, who ran outside and around the building to see the bandit trio flee. He was able to give police the license number and a description of the car.

A suspect was taken into custody at Pontoon Beach later Friday night but was released after being questioned.

Police are continuing a search for the other two bandits who made their escape, apparently on foot, from the parking lot at Schermer's X-L Hardware store at Pontoon Beach.

### Miss Dawn Kamm is Bride Of Robert Lindell Jones

Arrangements of white pompons and gladioli on the altar, lighted candles in the aisle and white bows marking the pews, provided the setting Saturday evening at First United Pentecostal Church for the wedding of Miss Dawn Catherine Kamm, a daughter of Mr. and Mrs. Howard Kamm, 3100 East 23rd street, and Robert Lindell Jones, whose parents are Mr. and Mrs. Robert W. Jones, 1389 West Pontion road.

The Rev. Kenneth Reeves officiated at the 6 o'clock traditional English service. White silk organza was used to fashion the bride's gown. It was designed with a high neck trimmed with peau d'ange lace. Lace motifs and pearls adorned the bodice and the long line skirt and a full sweep train fell from the waistline. It too was trimmed with the lace, and the bride's veil of illusion was worn mantilla style. She carried a cascade of daisies and trailing ivy.

Miss Susan Asaro, a cousin of the bride, was honor attendant, and bridesmaids were Miss Vickie Kamm, another cousin, and Miss Glenda Mitcheson. They wore chiffon gowns of pale yellow and apricot and carried crescent bouquets of daisies and chains of daisies and smilax.

Monica Kamm, the bride's niece, and John Hudson, served as flower girl and ring bearer. The former, dressed in yellow, held a wicker basket of daisies.

Bruce Jones was best man for his brother, and Dan Randall, Richard Kamm, the bride's brother, Jeff Jolly and Brad Smith were groomsmen and ushers.

A reception was held at Niedringhaus United Methodist Church, which united in marriage Miss Patsy Sue James and Howard E. Black.

The bridegroom is employed by Southwestern Bell Telephone Co.

Boy Scout Troop 122 led the pledge and Mrs. Virginia Rainwater gave the PTA prayer. Mrs. Ann Smith, pro-tem treasurer, gave a report of the annual school picnic that was held last week.

Principal Ted Vrenick installed the officers as follows: Tom Tiedt, president; Mrs. Estelle Smith, vice-president; Mrs. Frances Greene, secretary, and Mrs. Marie Bechly, treasurer. The new officers were seated and the meeting was adjourned by the new president.

Refreshments were served by the kitchen committee.

The service was read at 7:30.

A gown of white organza was worn by the bride. Fashioned in Victorian lines, it had a high neckline appliqued with Venice lace. The lace formed a band across the Empire bodice and trimmed the long, full sleeves.

Small lace daisy motifs were scattered throughout the dress, the long A-line skirt and full sweep train.

A half moon profile of flowers secured the bride's tulle veil of silk illusion, and she carried a Colonial bouquet of daisies, Zorrina sweetheart roses and ivy centered with a corsage.

The attendants, Miss Vickie Parmeter, maid of honor, and Mrs. Barbara Francis, Mrs. Sherry Black, a sister-in-law of the groom, and Miss Linda Seibert, bridesmaids, were in gowns of green, yellow, pink, orchid and blue chiffon with high necklines trimmed with satin. Satin bands encircled the waists and trimmed the long full sleeves. The skirts were semi-full. Flowered headpieces and brief veils matched the gowns and they carried colonial bouquets in the same pastel shades as their gowns.

Debra Sweeney, a niece of the bridegroom, was junior maid. Bryan Scott James, the bride's brother, carried the rings.

Mr. Black's attendants were his brother, William L. Black Jr., best man, and Larry James, the bride's brother, Paul Sitton, Thomas McIntosh, John James, uncle of the bride, and Elvis Sweeney, brother-in-law of the groom, groomsmen and ushers.

The wedding reception was held in the church basement, and the newlyweds left later for a trip to the Ozarks. They will make their home in Louisville, Ky., where the bridegroom, a graduate of the Venice high school, will attend United Electronics Institute. The former Miss James, also a graduate of the Venice high school, has been employed as a secretary at a St. Louis bank.

## Shrine Club Adds Members; Plans for June 3-4 Circus

The Tri-City Shrine Club met Thursday night at the local Masonic Temple with President Orville Hommer presiding and seven petitions for membership were accepted for Henry C. Stagg, Benny F. Glasgow, R. A. Lacquette, Henry C. Gross, Ernest T. McGinnis, Melvin Barbo and Robert White Jr.

A discussion on the forthcoming Shrine Circus on June 3 and 4 was held and it was announced that five special buses will transport children on June 3 at 4 p.m. from various points in the Quad-Cities area and will assemble at Kirkpatrick Homes for the final trip. A special bus for retarded and handicapped children will be stationed at the parking lot behind the F. W. Woolworth store, and will depart from that point at 7 p.m. Wednesday.

A special commendation and plaque was received by the Tri-City Shrine Club from the Cincinnati Burns Institute for its contribution of \$500 for "Bonds for Braces," and an assurance was given that the name of Oscar Albert, first president of the Tri-City Shrine Club, would be entered in the Golden Book, as requested with the contribution.

## Truckers Demand Union Release in Strike Dispute

A group of irate truck drivers who appeared Saturday at the Alton headquarters of Teamsters Union Local 600 demanded their release from the union on grounds the union had not negotiated vigorously in a Granite City trucking firm strike was led by a St. Louis man interested in recruiting the drivers as members of the union.

William Doty, business agent of Local 525, said the group that confronted him at the teamsters headquarters, was made up partly of drivers who are not members of Local 525 and who are not employed at M. C. Slater Co. in Granite City where a strike by truck drivers has been under way since April 1.

The group, which Doty said was headed by Hubert Henry of St. Louis, demanded the release from Local 525 of drivers employed at the Slater firm so that they could join Local 600. They charged that Local 525 had failed to press firm demands in negotiations with the Slater firm, and that he denied their demands.

Doty said the drivers at the Slater firm went out in a wildcat strike at the same time that Local 600 in St. Louis tied up truck operations throughout the metropolitan area in a bid for contract terms exceeding those of a nationwide contract agreement which had been accepted by a vote of teamsters members throughout the country.

Alton police were called to the scene Saturday to keep the confrontation from getting out of hand. There were no incidents, however.

five. But she revived and began screaming. I could see the skin was peeling away from her arm, but then an ambulance arrived and she was taken away."

"I don't even know her name, but I sure hope she makes it. I think she will," Lucas related at the fire scene.

That was Tuesday night, and the grateful Baehr family that had been spending every available minute at their daughter's bedside at St. Elizabeth Hospital, Belleville, began preparations for seeking some type of award for heroism for Fireman Lucas.

The girl, whose condition is no longer critical, was taken to St. Elizabeth Hospital here for emergency treatment and then transferred to the Belleville hospital where she is to undergo plastic surgery for severe burns to her left elbow. She also suffered third degree burns to all her toes.

A relative told the Press-Record that a good portion of her elbow was burned away. Shriners, who operate a Burn Center for fire victims, have been in contact with the family.

The girl, a second grader at Mitchell school, is a daughter of Mr. and Mrs. Edwin Baehr, who lives in a duplex at 13a Paul drive, just a short distance from Poor Boy John's store. She has a sister, Ellen, 8, and a brother, Brent, 9. Mr. Baehr is an employee of an electrical firm.

Little Janice had gone to the fire scene with a neighbor, Mrs. Jennie Ansley of 12a Paul drive, who also had her own three children and Janice's brother and sister.

"We parked about a block away, and I thought it was a safe distance," Mrs. Ansley told the Press-Record. "We were all out of the car but were standing close to it with the doors open watching the flames."

"I saw the flash and the fire drop across the car. I yelled to the children to get away, but then I saw one of them try to climb in. I tried to get to her, but I felt a shock, and I guess it knocked me out momentarily."

The next thing I knew, there was Janice on the ground with the fireman giving her mouth-to-mouth resuscitation," Mrs. Ansley said.

Fireman Lucas, who had taken first aid training as part of the training with the Mitchell volunteer fire department, remarked, "I never thought I'd have to use it."

A witness told the Press-Record, "That fireman just moved in, grabbed the child and then went to work trying to revive her. And he did."

Lucas said he felt reasonably safe in grabbing little Janice. "I did have on my rubber gloves and I was wearing rubber boots."

Lucas and his family live at 738 Ashland drive, Mitchell.

## Four Injured in 19 Area Crashes

Gary S. Giam, 22, of 2453 Morrison road, was admitted to St. Elizabeth Hospital about 1:40 a.m. yesterday for treatment of injuries suffered when he rode his motorcycle into a utility pole wire on the Tri-Mor Boulevard parking lot.

Giam was treated for scalp cuts, injuries to his right hand, left ankle and foot, abrasions to the left elbow and contusions to the left shoulder.

Police reported Giam was riding west across the parking lot when he crashed into the utility pole. The motorcycle was damaged extensively, police said.

Mollie Brown, 74, of 2546 Hennock street, was injured about 12:30 p.m. Friday in a two-car accident at Johnson road and Clark avenue. Police said she was the passenger in a car being driven north on Johnson road by Wilma Weaver, 2168 Bern avenue. The other car was being operated west on Clark avenue by Walter Mathenia, 35, of Wood River, who was charged with failure to yield right-of-way.

His Parked Car, Tree

A charge against Janice Reinhardt, 20, of Granite City, of attempting to use a forged prescription form stolen from the Washington University medical store to obtain drugs at Gasen's store was dismissed on a motion by the office of the state's attorney.

Granite City police were surprised by the nolle prosequi, especially as they had been expected to appear in court on the case last week.

State's Atty. R. W. Griffith said that Miss Reinhardt, 19, had enticed a guilty plea to a charge of carrying a dangerous weapon, and was given probation.

Four of six persons who were arrested in a narcotics raid in Venice last Dec. 6 were permitted to plead guilty to reduced charges and were fined \$100 and placed on six months probation by Circuit Court Judge James O. Monroe.

They are Donald L. Mangiaracino, 22, whose home at 1021 Third street, Venice, was raided; Dennis Lynn Coleman, 21, of 3219 Westchester drive; Norbert Schade Jr., 22, of 2445 St. Clair avenue; and Gordon Pierson, 31, of 3009 Date avenue.

They had been charged with unlawful possession of narcotic drugs. The charges were reduced to possession of instruments adapted for use of narcotic drugs by injection. The penalties were recommended by the state's attorney's office.

## Warrior Nine Enters Sectionals Tuesday

Granite City high school's baseball team will continue its quest for the state championship Tuesday afternoon by meeting Springfield Southeast in the Springfield sectional tournament.

Barring rainouts, the sectional champion will be decided on Wednesday, with the winner of today's opener meeting the winner of the Tuesday contest.

The local Warriors started the tournament series with 479 other downstate teams, and only Granite City and 27 other teams remain alive. After Wednesday, only seven downstate and the Chicago champ will have survived. The championship series will be held June 4-5 in Peoria.

The solid Warrior team has etched a 24-6 record. It has knocked 15 victories on the current winning string.

Tuesday the GCHS string will be tested at Springfield. A loss means the Warrior season ends—a win will hurt them among a bitter-sweet 14, who must win more head-to-head games.

At Springfield Granite City will play the hometown favorite at the excellently kept grounds of the minor league ballpark, now Griffin park, at 4:15 p.m.

Southeast won the Springfield regional last Thursday beating Taylorville, 4-2, with a full house of paid attendance from the Springfield area.

Bob Benedict is the probable mound starter against GCHS. He is undefeated in six outings in the Springfield regional finale. Benedict gave up five hits and one walk. Southeast boasts an overall 15-3 record.

Today the sectional opens with Pittsfield playing Staunton. Pittsfield won a regional title beating Virginia 2-0 behind the two-hit pitching of Tom McCartney. Staunton won its regional blanking Litchfield 10-0. Dennis Smiley carries a 10-0 pitching record for Staunton.

Coach Garbe scouted the Springfield regional finale, which Southeast won. He observed Southeast's prime pitcher, Benedict, as a hard throwing right hander. The club is small and has good speed. Though probably not loaded with home run hitters, the difference is made up by the difference in speed. The Warriors have been practicing daily and Garbe notes that team spirit is high. The players are looking forward to boarding the bus for Springfield at about noon Tuesday.

Granite City's good-batting work load has been evenly carried by the whole team, as witnessed by five carryings over 300 averages.

Garbe acknowledges that the Warriors are likely to produce a weak card at the sectional. Through the season, it has been typical for one player to take multiple hits off a particular opposing pitcher in one game. The balanced team of varied batting styles has usually made for at least one Warrior to have an excellent day at the plate.

So far in tournament play no warrior has tallied more than one hit per game. At Springfield Granite City will certainly be good for someone to touch for more than one hit.

Madison's state entries did not place in the finals. They were: George Tyus, 10 dash; Tecumseh Holmes, 440 dash; and the mile relay squad of Vann Ford, Larry Mosby, Dennis Hampton and Holmes.

Warrior mile relayers were eighth. They ran in four seconds better than the school record they already held with a 3:22.4 clocking. They were Ken Elliff, Evanston won the state team championship. Alton was runner-up. Granite City tied for 16th with Alton's.

The Staunton-Pittsfield victor will play the Granite City-Southeast victor for the sectional title Wednesday at 4:15 p.m.

The Springfield sectional title is to meet the Chicago city champion in the first round at state.

Granite City last visited the state tournament in 1963 and finished second losing the final game to Des Moines.

The current Granite City athletic director, Joe Fedora was then coach.

In 1948 Granite City went all the way and brought home the state crown. That year, Warrior catcher Carl Linhart set a state tournament record for the most triples in a single game.

Linhart and Borchers were named to the all-tournament team along with Granite City's pitcher Rudy Diak, left fielder Conrad Chapman and shortstop Jim Tadin.

Current GCHS Principal Lawrence McCauley collected the '48 state crown for Granite City.

Head Warrior, Coach Gale Garbe plans a starting lineup for Tuesday's sectional of Don Harris, second base; Rich Schardan, shortstop; Dave Evans, catcher; Jim Green, right field; Gary Smith, left field; Gary Willis, first base; Jerry Monahan, center field; and Bill Parks, left field.

Ed Hagauer, undefeated in seven games, will probably start on the hill. The whole bullpen will be in-ready to support him.

North Hagauer, Ron "Deacon" Simpson, Jeff Boyles and Ned Tapp have been regular starters through the season.

Boyles, with his 11-1 record, is a prominent all-state candidate. Tapp, Granite City's best leftfielder, will be in uniform for the first time Tuesday since he was hospitalized with pneumonia before the tournament series began.

## Cougars Place 2nd in NCAA Midwest Meet

Southern Illinois University's three-man catching staff could have won the batting championship if the receiving duties hadn't been divided up the way they were. Willis Bundy hit .360 in 10 games; Mike Allaria averaged .333 in 11 contests, while Roger Behne, freshman from Granite City, hit well (.211) below his average over nine games.

Starters in the Cougars' last 11 games, but having only 28 of official times at bat, John Goddard topped all SIU hitters with a .383 mark.

In pitching statistics, Rains came within inches of winning the ERA title despite his 3-3 record. He had an ERA of 1.67 to Poes' 1.62. Next was Thompson with a 1.69 figure.

Thompson has held the mound for more innings (33½) than any other Cougar and leads the squad in strikeouts with 50. In all, he has given up 12 bases on balls.

Poes in 39 frames has fanned 45 and walked 14.

Dave Hays drove the Cougars winning run against ISU in the seventh inning on a single to right, scoring Ron Robling.

Dan Weaver tripled in the first inning to score Jerry Pilcher who had walked. John Belk, SIU-SW shortstop, scored in the second inning on an error by the Illinois State shortstop.

Malone tied the game in the sixth with an infield hit.

Steve Malone allowed five hits for the pitching win. He gave up one run in the second and two in the fourth.

Bruce Thompson bettered his pitching record to 2-0 over Nichols state with relief in the ninth inning after one out by Don Rains.

SIU right fielder Dan Cole tripled in the third inning, driving in catcher Mike Allaria and left fielder Dan Weaver, both of whom had walked. Trying to stretch the triple into a home run, Weaver crashed into Nichols State's catcher and suffered a shoulder separation.

Cole was replaced by John Corey, who drove in the winning run in the seventh inning with a sacrifice to deep center field.

SIU was out 10 to 9 in the nine-inning game.

Cougar second baseman Dennis Schutzenhofer and shortstop John Belk made double-plays in the fourth, sixth and seventh innings to get the Cougars out of trouble. Nichols State scored in the seventh.

Complete, 24-game statistics for the regular season of the Dan Cole winning the batting championship with a .385 average.

Other hitting leaders, figured on at least 50 times at bat, are: team captain and left fielder Dan Weaver, .366; third baseman Rick Keefe, .322; shortstop John Belk, .284; center fielder Jerry Pilcher, .203. Only the sure fielding Schutzenhofer played in all 24 Cougar games. At least two of the Cougars'.

Joe Papas went undefeated in regular season matches, playing doubles with several different partners. Duayne Parrish, also a doubles specialist, garnered a near perfect 10-2 record. Both players are juniors.

Senior Bill Reader mounted the team's best singles record. He lost three in 17 outings. Those who beat Reader advanced to state tournaments, including a St. Louis U. high player who is to compete in the Missouri prep finals.

Other regular singles performers notched records of 12-5 for senior Mike Loftus and 10-7 for junior Mike Gaines. Seniors Dave Pieper logged a 13-3 and Charles Libby, 6-1.

Kevin McIlroy and Bob Parney each made 1-1 marks as juniors.

### YMCA Instructor Shows Collection of Artwork

The first exhibition of hand-made Dresden china and sculpture, created by Mrs. Archie Vandaveer, a Tri-Cities Area YMCA volunteer instructor, is being displayed through May in the foyer of the new BAC Cinema in Belleville.

The collection represents just a portion of ceramic artwork and sculpture accomplished by the native Granite Cityan over a period of many years.

A lengthy illness several years ago resulted in Mrs. Vandaveer wearing restrictive braces and curtailed her artistic activities to some extent. In recent years she has resumed her endeavors, extending the scope of achievement into sculpture.

Mrs. Vandaveer is a charter member and serves as historian of the Town and Country Artist's Guild; a group comprising many Madison County artists, professional and amateur. For ten years, she has served as a Girl Scout leader and currently teaches "Free Form Clay Molding" to members of the local YMCA Senior Citizens Club.

Delicate lace is worked into the clay to achieve the fine china she produces at her home studio. The former Miss Ann Maykoyet of Granite City the artist now resides at 1012 Aldo drive, Collinsville.

**S/SGT. JOHN WILSON** (right) receiving the Army Commendation Medal for meritorious achievement from Col. E. A. Thomas, adjutant general for II Field Force in Vietnam.

## Commendation Medal For S/Sgt. Wilson

S/SGT. John W. Wilson Jr. of Granite City received the Army Commendation Medal for meritorious achievement in connection with military operations against a hostile force during the period of Dec. 15, 1969, to March 5, 1970, in Vietnam.

As a non-commissioned officer, Sgt. Wilson, is in charge of the Awards and Decoration Division, II Field Force.

The presentation was made, recently, by Colonel E. A. Thomas, Adjutant General for II Field Force.

Sgt. Wilson is the son of Mrs. Gladys Gandorla of 2337 Lynch avenue and his wife, Georgiana, lives along Bluebird lane, with their three children.

Prior to entering the Armed Forces, the local serviceman served as a deputy sheriff for Madison county.

The citation read in part, "S/SGT. Wilson distinguished himself by exceptionally meritorious achievement in connection with ground operations against a hostile force during the period Dec. 15, 1969, to March 5, 1970, while serving as the non-commissioned officer-in-charge of the Awards and Decorations Division, Adjutant General's Section, Headquarters, II Field Force Vietnam."

During a division that had been operating without a non-commissioned officer for a considerable period of time, Sgt. Wilson immediately surveyed the situation and began to initiate necessary operational changes. Realizing the importance of having a good enlisted, non-commissioned officer and officer relationship, he instituted procedures where the office output, personnel problems and enlisted personnel actions were funneled through him for his review prior to being reviewed by the officer-in-charge.

## Realtor Explains Code; FHA 235 Home Financing

Channel through which action may be sought by purchasers of property and homes should a real estate transaction result in a grievance against a realtor were described Thursday by George Peterie, a Godfrey realtor, who spoke at the Granite City Optimists luncheon meeting in the Rose Bowl restaurant.

Club members also heard of recent efforts by the local men's service group to organize a new optimist club for faculty and staff at the Southern Illinois University-Southwestern campus.

Introduced by Fred Cunningham, Optimist program chairman for May, the Godfrey realtor explained the variances between a real estate agent and a professional realtor.

The latter is pledged to observe a very strict code of ethics in the handling and servicing of every real estate transaction and is governed by a strong professional standards committee, composed of several of the most respected members of a local Real Estate Board, Peterie said.

A professional realtor must be a fulltime businessman; is required to have a high degree of knowledge of the real estate market and must pass state board examinations, the speaker stressed. He cannot be employed in another field and is not permitted to employ untrained salesmen or other unlicensed personnel, he said.

Dissatisfied clients of a realtor can seek redress through a grievance committee, part of a local Real Estate Board's function. This committee has the authority to discipline fire or dismiss any fellow member who violates the code of ethics in business practices with the public, following a hearing, Peterie noted.

A review by the Godfrey realtor of the FHA 235 program through which low and middle income families may

purchase their own home with a minimal downpayment and have interest rates subsidized by the federal government, opened up a Pandora's box of questions from the audience.

The FHA bill, enacted in December 1968, enables families with low and moderate incomes to buy a new home with a value not exceeding \$18,300 for a 3% down payment, with the purchaser paying as little as 1% interest and the government financing the remaining interest rate, Peterie explained.

Those eligible to take part in the program must fall within an specific annual income level and make payments according to the amount of yearly salary and size of family.

Norman Reinhardt, whose local realty firm is extensively involved in the FHA 235 program, offered a further explanation. He noted that a married man with a wife and two children, whose annual income ranges from \$7000 to \$7500, can purchase an \$18,300 home for a minimum down payment and monthly payments of \$100, with the federal government contributing an additional \$80 monthly.

Reinhardt pointed out that with such an initial low down payment, as small as \$200 to \$500 and equal only to normal closing costs, usual monthly payments of \$100 would be required. Twenty-eight homes were sold in one weekend by the local firm through the FHA 235 program, the realtor said.

John L. "Jerry" McDonald, Optimist club president, reported progress in the club's attempt to organize a new Optimist group at the SIU-SW campus. Carl Roach, who is heading the New Club committee, has met on several occasions with university faculty and staff members, he said.

Others assisting Roach in the project are Dr. Raymond Troyer, a SIU-SW professor and past president of Granite City Optimist Club, Ted Ellerman, Ernest E. Veihl, Gene Sternberg, Howard Colquitt and Ivan Harrison.

McDonald announced club members will meet Thursday for a seven o'clock dinner session at the Granite City Elk's Club, replacing the regular luncheon session.

**\$25,000 Suit Filed Over Auto Accident**

A suit for \$25,000 was filed for Edward Paschedag, a minor, by his mother, Mrs. Leola Paschedag, against Louis Cottrill last week in Madison county circuit court.

The complaint alleges that Paschedag sustained permanent injuries in a traffic accident involving Cottrill's auto last March 27 on Slough road. Negligence was charged.

## Wiretaps Bringing More Arrests, Convictions on Organized Crime

By WILL WILSON

Assistant Attorney General, Criminal Division

The decision of Attorney General John N. Mitchell to use the wiretap provisions of the Omnibus Crime Control and Safe Streets Act of 1968 marked the turning point in mounting pressure to bring more arrests and convictions on organized crime.

Wiretapping and immunity are the two best weapons against the illegal gambling syndicates whose cash-flow revenues is the lifeblood of organized crime.

In 1969, the Department of Justice requested authority for electronic surveillance in 33 cases under investigation.

The results: 173 arrests in 12 of the cases; continuing investigation in which indictments are anticipated in 11 of the cases; only seven cases in which results were non-productive.

In all of the cases, indications are clear that the evidence secured from the wiretapping was essential to the investigation and could have been uncovered in no other way.

Since none of the cases has been completed, being presently at either the trial or appellate stage, no specific statistics can be made about them or about the extent to which the retrieval of overhead conversations contributed to the success of the investigation.

Why is it necessary to resort to wiretapping? To answer this requires an understanding of the nature of the type of crime in which electronic eavesdropping is principally used—organized crime.

Today, the core of organized crime in the United States consist of 24 groups operating as criminal enterprises across the nation. Estimated overall member strength of these core groups, called "families," is put at 5000.

Like any large corporation, but unlike the criminal gangs of the past, the organization functions regardless of individual personnel changes.

Each family is headed by a "boss," whose primary functions are the maintenance of order, through the family "enforcer," and the maximization of profit.

Beneath each boss is an "underboss." He collects information, relays messages to the "boss" and passing his instructions to his underlings.

The lieutenants — "caporegimes" or "capodecina" — are the chief of the operating units.

Below them are the "soldati" or "hutton men" who actually operate the illicit enterprise, using as personnel the professional criminals who directly confront the public.

Rarely are the leaders touched by police investigation. They maintain insulation within the organization, through the underboss and the "caporegime," avoiding direct communication with the "soldati."

Until recently, no information was available about the structure of organized crime. Robert F. Kennedy observed that, to make major inroads against organized crime, new weapons including electronic surveillance techniques, would have to be obtained, and that, until then, the job would not get done.

In 1968, Congress passed into law the Omnibus Crime Control and Safe Streets Act of 1968, which gave the government the needed new weapon, authorizing the use of electronic surveillance in cases involving racketeering.

Philosophical opposition to this weapon, however, by LBJ's Attorney General, Ramsey Clark, prevented its use until it was used by Attorney General Mitchell.

In 1968, Attorney General Mitchell, as the files of cases will eventually show, the use of electronic surveillance has changed the balance. In phone in his office, a proportion of investigations is resulting in indictments and convictions of organized-crime figures.

Today, much more is known about organized crime. Much information has resulted from electronic surveillance in organized criminal activity.

For example, in 1967, the "Patriarcha tapes" were released in Providence, R.I. Raymond Patriarcha's involvement as head of a New England "family" was discovered when the FBI placed a microphone in his office. The microphone was located in a vending-machine company (the National Cigarette Service).

the alert and discuss these bills, as well as other taxation legislation, with their legislators.

If held constitutional, legislation of a year ago, which exempts household furniture and one car per household from the property tax and a homestead exemption for the elderly, will mean some property tax relief. But such relief will be taken away before it is received in 1971 if increases in other property tax areas are automatically slapped on property owners.

### Impetive That the Long Freeze on Road Projects Be Ended Without Further Delay

As the Southern Illinois Builders Association says, St. Clair and Madison counties have been "overly patient" with the 23-month highway improvement financial freeze and "it is long past time" that the fund cutoff be ended.

Not only is the stoppage of road construction seriously affecting the economy of this region, but needless congestion, injuries and damage are resulting from the inadequacy of present highways.

Opposing the long construction halt as an inappropriate way to fight discriminatory hiring practices, an SIBA spokesman notes that it doesn't take a mathematician to realize you can't create more jobs by stopping work."

With no detailed alternative plans developed during the four months since a hiring and training proposal was offered by Gov. Ogilvie, it seems obvious that his plan should be placed into effect along with any reasonable amendments for which a case has been made.

Time is hurrying by the public and the 1970 construction season is slipping away, considering the lead time necessary for bid calls and contract awards. Immediate resumption of highway projects is imperative.

### Separate Vote on New Illinois Voting Age

Campus disruptions this spring are believed to have reduced the chances that Congress will act to lower the voting age nationally to 18. Violence by some college students also may have diminished the prospect that Illinoisans will revise their state constitution to permit 18-year-olds to vote.

This being the case, the Constitutional Convention has taken a sound middle ground by submitting the voting age to the public. This allows the proposal to win or lose on its own merits as one of a number of separate questions to be decided.

### Free 'Job Wanted' Ads for Local Youths

As was done in several recent years, the Press-Record this spring is offering free "job wanted" ads to youths seeking summer employment. The first of the ads are being published this week, and similar listings are planned in the first week of June.

Summer jobs for teenagers are scarce this year, and many will have extra difficulty pursuing their education if they fail to find means of earning and saving funds.

All employers who could utilize extra workers during the next several months are urged to contact those who advertise for jobs.

### Doctor in the Kitchen

By Laurence M. Hursh, M.D.

Consultant, National Dairy Council

Living by oneself can be a

nightmare. Lonesome, business-like, the problems of the one of eating alone. In many cases it may be almost the number one problem.

The older person, living alone, may become badly nourished for physical or financial reasons. But the problem is not limited to the aging. The three-meal-a-day dilemma, day in and day out.

A married man whose wife goes to visit her mother, or when his wife is having a baby, gets the taste of the problem. He agrees that being alone is a far cry from when his wife is taking care of him. He knows he has to eat, to let dishes pile up until some time to be washed for the next meal. Being alone permanently is much worse.

Short Cuts Frozen dinner, canned foods that can be quickly heated, hasty sandwiches are always a temptation to the lone diner. But these shortcuts themselves are not so bad. But as shortcuts they are not a substitute for the wide variety of choices of all different kinds of foods, the four food groups, furnishing a fully balanced and adequate diet.

The individual that lives alone has the same nutritional needs as those who live in a household among loved ones. Good health, in fact, can be even more important to someone alone in the world than those of us who have relatives to fall back on in case of illness. Thus a suitable plan for eating is essential.

Begin With Breakfast

This should begin with breakfast. Skipping breakfast is nonsense and the temptation may be greater for one who lives alone. Lunch is easier since companionship is not difficult to arrange. In business, it could even be considered a principal meal, not just in quantity, but a time when the diner can be simpler if breakfast, the four food groups, furnish adequate. And a bedtime snack, say, a warm glass of milk, will top things off sensibly and enjoyably.

Do invite friends to your abode for occasional dinner. Eating is an important social function, as well as a necessity. Preparing food for friends is a social event, the routine of getting your own meals. On the weekends, try to have a social event. It could add worlds of excitement to an otherwise routine morning meal.

(The Town Clerk, Wayland, Mass.)

For the 25 years leading up to now, with 14 still to go, a lot has been written about the truth of the prophecy in George Orwell's "1984."

Of course the totalitarian society he describes already exists in many countries today, but what is to evolve in the future, which are still free societies?

What we believe is happening in countries such as our own is a form of totalitarianism which, at its height, will surpass a similar type of existence already existing in a few nations on almost every continent.

Anthropologist Margaret Mead certainly wasn't the first person to realize that a society will be required in the not too distant future for human procreation, although she has received credit for the idea in recent publications.

On a regional basis, it has been decided that it is in the best interests of most people to ban all open air burning by July, and a state restriction may already been circulated in this regard.

Are there more areas where the freedom to do exactly as we please will be curtailed? We think so and have tried to start a regional ban on open air burning. Although it is meager right now, maybe you can help us.

### Higher Property Tax Rate Limits Proposed By Assembly Despite the State Income Tax

(Taxpayers' Federation of Illinois)

One of the arguments given to support the passage of the State Income Tax Act by the General Assembly a year ago was that it would relieve the burden on the property taxpayer, but bills now before the legislature would negate that argument.

Some of the bills which, if passed by the present legislature and enacted into law, would bypass the people and automatically increase property taxes are:

H. B. 3736, increase Park District general fund rate from .10% to .12%; H. B. 3342, increase municipal library tax from .12% to .15%; H. B. 3343, increase library district tax from .12% to .15%.

S. B. 876, increases county general tax from .10% to .30% for counties between 15,000 and 3,000,000 population, and from .20% to .40% for counties under 15,000.

H. B. 3740, increases sanitary district tax from .083% to .25% for districts under Act of 1917; S. B. 1428, same as H. B. 3740.

H. B. 3837, increases aggregate rate of taxes from sanitary districts under 1907 Act from .20% to .50%.

H. B. 3838, increases rate of taxes for sanitary districts under 1911 Act from .083% to .25%.

H. B. 3833, amends Sanitary District Act of 1936 by increasing sewage treatment tax (chlorination, etc.) from .02% to .07%; S. B. 1424, amends Sanitary District Act of 1917 by increasing sewage treatment tax (chlorination, etc.) from .02% to .07%; S. # I People the lineman

"—this is a team job and every man on the team depends on the rest of his crew. It takes four years to train a lineman and when your crew has a tough repair job on a stormy night, you understand why. Sure, a lot of our work is routine... patting the lines, checking, testing to catch trouble before it happens. Today we've got the latest equipment, like these big orange bucket trucks. It all helps us get the job done faster and better. We've even got a crane that swings a lineman ten stories up in the air. Never thought I'd see that 30 years ago when I started with the company..."

The bride's mother chose a turquoise coat and dress ensemble and matching accessories, while Mrs. Pates, the bridegroom's sister, wore a hot pink dress with rhinestone trim. Both had corsages of orchids and statice.

## U.S. Accounting Agency to Investigate Depot Closing

A study into costs and reasons for closing the Granite City Army Depot, which the government has ordered shut down by July 1971, is to be initiated this week by the General Accounting Office (GAO), a special investigative branch of Congress, it was announced Friday by Cong. Melvin Price (D-East St. Louis).

The study will be made at Cong. Price's request, to look into justification for the decision by the Department of Defense to inactivate the depot. Price said he was informed by C. M. Bailey, director of the accounting office, that a meeting between GAO personnel and Cong. Price will be set up to consider the scope of the study in about a week.

Bailey informed the congressman that the study would include an evaluation of the determinations of the Department of Defense regarding the comparative merits of the Granite City Army Depot as opposed to other depots in the area of proximity to ports, facilities, encroachments, labor costs, productivity and the number of depots storing similar items.

Cong. Price said a copy of Bailey's letter and report for the study has been sent to

## Two Fight Police In Early Morning Tavern Incidents

Two early morning tavern incidents, one occurring nearly an hour after the 4 a.m. closing limit for Madison taverns — resulted Saturday morning in the arrest of two men both of whom had to be subdued by police before they were taken to jail.

Arrested in one incident was Terry Thwaitt, 42, of Rural Route One, Granite City. Police said he had held a number of tavern patrons at gunpoint in Tony & Joe's Tavern, Third street and Madison avenue.

Booked on three charges in the other incident was James Kostoff, 21, of 123 1/2 Locust, Madison, who was arrested outside the Sportsman's Club, 1001 Iowa street after he allegedly attacked Madison Police Sgt. William Fanning, who said he had ordered Kostoff to stop his drinking on the sidewalk outside the tavern.

Kostoff was booked on charges of disorderly conduct, resisting battery and resisting arrest.

Police filed charges of resisting arrest, unlawful use of a weapon and aggravated battery against Thwaitt.

Both Thwaitt and Kostoff were released on bond pending hearings.

Called at 4:25 a.m., Police reported they were called to Tony & Joe's Tavern about 4:25 a.m. by Anthony Anselmo, operator of the tavern, who met Officers Ronald Grzywacz and William Papa out on patrol.

Thwaitt was threatening tavern patrons with a gun.

Grzywacz and Papa searched Thwaitt and said they found a single-shot Derringer pistol, loaded with a hollow-point bullet, in his right front pocket.

The officers said Thwaitt was informed he was under arrest. He accompanied police to the police station.

Outside police headquarters, the officers reported, Thwaitt refused to enter the station. They said Thwaitt made threats against Anselmo and against the officers. Grzywacz and Papa said after Thwaitt refused to enter the station for the fifth time, a fight began in which force was used "to drag him into the station."

Both Thwaitt and Papa said that Thwaitt became abusive and pulled the gun after the officers refused to let him go.

Drinking on Sidewalk

Kostoff was arrested at 1:50 a.m. following the fight with Sgt. Fanning at the Sportsman's Club where, Fanning reported, he saw Kostoff drinking a bottle of beer on the sidewalk outside the tavern. Fanning said he asked Kostoff to take his drink inside on three occasions and that Kostoff refused to obey the order. The officer reported he reached for the beer bottle to take it from Kostoff and Kostoff struck him.

Fanning then told Kostoff he was under arrest. At that point, Fanning reported, Kostoff grabbed him around the neck and both men fell to the sidewalk. Fanning said he used chemical mace without having any effect. Fanning then attempted to handcuff Kostoff, but Kostoff broke free and struck the officer again, police said.

Meanwhile, Officers Ronald Grzywacz and William Papa arrived and Kostoff was taken to headquarters.

The incidents came at a time when a proposal to reduce the tavern closing hour to 1 a.m. is under discussion as a major issue in the mayoralty election campaign. The city council recently rejected an ordinance by acting mayor Ray Kozielek to cut back the tavern closing hour to 1 a.m. from the present 4 a.m. closing.

## GC Auto Tag Sales Lag; Deadline Date June 1st

Failure to display a 1970 city license sticker in a prominent place on a vehicle by June 1 will result in issuance of an arrest ticket to Granite City motorists, Police Chief Ronald Veizer reminded local car owners today.

Starting next Monday, roadblocks will be set up along the city and police officers will issue tickets to Granite City residents whose vehicle do not display a city auto tag, the police official said. Summons can be given to persons having purchased a sticker, but not displaying the decal on the vehicle, he pointed out.

A parked car owned by William J. McCunney, 1625 Delmar avenue, received minor damage about 4:30 p.m. when it was struck by a car which was being backed out of a parking space by Meyer Wilcox, 1933 E. Venice police said the mishap occurred in the fines for violators range from \$5 to \$100, plus court costs.

The official commented that in previous years, long lines of last minute purchasers have formed a day or two before the deadline, clogging the city hall stairway and trailing through the building along the sidewalk outside.

## Rules Coroner May Not Nullify Verdict by Jury

Illinois coroners cannot set aside the verdict of a coroner's jury and may not reopen an inquest after a verdict has been returned, according to an opinion returned at Springfield by Illinois Attorney General William J. Scott.

In addition, the attorney general held, members of a coroner's jury must view the actual physical remains of the deceased. Viewing photographs of the deceased, for example, would not fulfill requirements of the law, Scott ruled.

The attorney general's opinion was given to State's Atty. James N. DeWitt of Rock Island county who asked if a coroner could set aside an inquest verdict or reopen an inquest when newly discovered evidence indicates that the verdict of the coroner's jury was erroneous.

### Preliminary Proceeding

Scott said: "The sole purpose for a coroner's inquest is an immediate investigation into death and the whole proceeding is preliminary."

The object is to determine whether a crime was committed by an examination of the facts while they can be most easily had and, whatever the conclusion (of the coroner's jury), it can neither convict nor acquit."

The ruling made clear that a state's attorney is not bound by the findings of a coroner's jury and is free to take whatever action is legally appropriate, whether or not new facts are discovered in any such case.

Scott stressed that it is the duty of law enforcement officials and state's attorney "to investigate and prosecute criminal acts brought to their attention, notwithstanding the decision of a coroner's jury."

## Grand Jury Urges Probe of SIU Student Disturbances

The Madison county grand jury recommended at Edwardsville Friday that an investigation into recent civil disturbances be made by the next session of the grand jury.

The outgoing January term grand jury panel, in a final report signed by Willis E. Gentry, jury foreman, touched only briefly on the proposals, suggesting that the county inquire of SIU officials, students, teachers, public officers and other persons regarding certain recent civil disturbances affecting the residents of Madison county.

The jury report also touched on a recently developed issue at the Southern Illinois University at Carbondale, recommending that members of the security force at the university be allowed to carry firearms "at all times."

No Guns in Daylight That recommendation, obviously, is based on the disclosure by the University administration to a student detective that members of the SIU security force not be allowed to carry guns during daylight hours.

The report also stated that some members of the guard force have been reported as being "battered" by the order, but administration officials said there have been no resignations over the order. Several officers had remarked they planned to seek other jobs.

As most previous grand juries have done, the outgoing jury in Friday's report said "the physical conditions of the (campus) jail are deplorable" and said that "this facility does not meet any basic standard of a civilized institution. The report did not contain any concrete recommendations, however."

Sanatorium Idle The jury noted that while the Madison County Tuberculosis Sanatorium stands virtually idle, at the same time the Madison County Nursing Home "has continued to operate its present dismal and dangerous facilities."

The report pointed out that present nursing home facilities "are a definite fire hazard." The jury acknowledged the need for extensive remodeling and said it was "deeply disturbed" by the expense and beautiful edifice for the decades to come," the jury commented.

## Salvation Army Opens Building Fund Drive

A dinner to launch officially the building fund campaign of the local Salvation Army to construct a multi-purpose building at 3521 Johnson road took place Thursday night at the Granite City high school cafeteria with an attendance of 300 persons.

Dr. Merrill Ottewill, of Edwardsville, state senator, was the principal speaker, citing the need for personal ministry, with each person giving of his time to help others and also to help the government set wise policies.

The invocation was by Brigadier John W. Paton, divisional commander, and the benediction was by Capt. Harold F. Thomas.

William F. Hoelscher of the Tricities, was toastmaster, and Salvation Army Board President Richard West conducted the business portion of the meeting. He and Randall Robertson spoke on the need for the fund-raising drive.

Unable to expand the present facilities, the Army plans on building a single-story structure to include a "mini" gym, half a basketball court and volleyball court. The building will also house an auditorium for meetings of various groups,

six meeting rooms for youngsters, scouts and senior citizens.

The estimated cost of the building program was set at \$255,000 but with gifts already received the campaign goal will be only \$100,000. The Johnson road tract was acquired for \$18,500.

The present building at 19th street and Grand avenue will be retained for the Corps' welfare programs, which include the annual "Tree of Lights" Christmas giving and Christmas toy distribution.

Brigadier Paton presented life membership certificates to board members George Stearns and Albert Michel, and Richard West presented an award to Edward L. Stone, the immediate past chairman of the Advisory Board.

West then inducted the new board members — Mrs. Lily Chaboude, Walter Givlick, Mrs. Alvinette Metcalfe, Pauline Weir and William F. Winter, and introduced board members whose terms have not expired.

Capt. Thomas presented a gift to Mrs. Chaboude, chairman of their over-the-top Tree of Lights drive, and chairman of the kick-off dinner.

Capt. and Mrs. Thomas and Mrs. Chaboude then presented

the awards to the top Tree of Lights Bellingring groups—Tricities Shrine Club, Business & Professional Women, Granite City Rotary Club, Moose Lodge 272, National Secretaries, ROCA - Young Men's Club, Trailblazers Saddle Club, SA Cub Scouts and Girl Scouts, SA Home League, Astro Physical Club, Emerson School, PTA, Granite City Kiwanis, James Stuart Chapter Order of DeMolay, and Job's Daughters.

Also cited for special services to the Corps were — First Granite City National Bank and employees; Fraternal Order of Eagles, Aerie 1106; Flavor Kist Baking Co., Granite City park board; Granite City Press-Record; Girl Scouts of Neighborhood 5; Granite City Steel-Charitable Trust; Houser Automotive; Madison Auto Parts; Granite Tea Co.; S. E. Pershall; Quad-City Gasoline Dealers Association; Railway Business Women's Club; Retail Clerks Local 435; and Mrs. Jane Reese and volunteers.

The "Woodmen" ten high school and college age students singing group from Third Baptist Church, entertained with a number of vocal selections and the meeting ended with the audience singing "Onward Christian Soldiers."

**OUTSTANDING ACCOMPLISHMENTS** by Paul Stayduhar (left), 2335 Woodlawn avenue, chief of the systems and programs branch of the St. Louis field office-eastern area, Military Traffic Management and Terminal Service, which led to a presentation of a certificate and commendation and a cash award by Col. Charles A. Lewis, agency commander.

## SIU Board Sets Limit On Enrollment at SIU-SW

Resolutions limiting the enrollment at the SIU-Southwestern campus and confirming plans to reopen the Carbondale campus for the summer quarter were adopted Friday by the Southern Illinois University board of trustees, meeting in Carbondale.

The board, meeting in special session, also approved rebates averaging \$70 to those students living in University-operated residence halls which were closed following suspension of spring quarter classes.

Chancellor John Rendleman of the Southwestern campus asked permission to limit next fall's enrollment to 13,700 students, pointing out that a construction freeze in effect for two years had prevented expansion of facilities and that classrooms now were utilized at a maximum rate. Enrollment last fall at SIU-SW was 12,152.

In discussion that followed, Board Member Melvin Lockard of Mattoon wondered if it was possible, nationwide, that universities were attempting to educate too many people. Chancellor Rendleman expressed fears campuses could become

too large, causing students to lose their identity.

Chancellor Robert MacVicar of the Carbondale campus said, "One thing to have a large university in a large city, but another thing to have a large institution in a relatively small community." He questioned the ability of a smaller community to cope with the financial and physical problems involved.

President Delyte W. Morris assured the board it would be possible to ready the Carbondale campus for the scheduled June 22nd start of Summer quarter classes and it was so ordered.

The SIU board went into executive session with the 23 members of the Carbondale campus Faculty-Sub-council, to hear its recommendations for future operation of the Carbondale campus.

## Gateway Council to Discuss Airport Plan

A request by the city of St. Louis for endorsement of the St. Louis-State of Illinois plan to set up a Metropolitan Airport Authority to supervise construction of a second major airport in the Illinois area will be discussed by the board of directors of the East-West Gateway Coordinating Council Wednesday.

The matter is scheduled first on the meeting agenda which will open at 3 p.m. in the Exchange Room of Holiday Inn, St. Louis. St. Louis has requested Council approval of the program under which a bi-state authority of ten members, five from Illinois and five from St. Louis, would be created to handle the airport development.

Enactment legislation for setting up the authority has been introduced in the Illinois Assembly. Plans for development of the airport on the Illinois side of the river were announced jointly several weeks ago by Gov. Ogilvie of Illinois and Mayor A. J. Cervantes of St. Louis.

The Gateway Council also is scheduled to review plans for a series of projects subject council approval.

## Solutions to Problems of War, Violence Studied

Suggestions that Southern Illinois University initiate a boycott against all of its contractors and suppliers who practice racism or discrimination were made during a summation of a series of convocations on problems of war, racism and violence which developed on the Southwestern campus last week.

The suggestion came from Edward Hudlin, an instructor of philosophy, one of a panel of 14 faculty, student and administrators.

Hudlin suggested the University make public lists of offenders of federal and state laws now in existence.

Other suggestions on what the campus community could do to combat racism, war and violence included:

**To Ring Doorbells**  
Taking the campaign against U.S. involvement in Vietnam and Cambodia into area communities, ringing doorbells and urging area residents to write their congressmen. Student leaders of the Coalition indicated they would begin doing this immediately.

**Rearranging the academic calendar** to allow students two weeks of time for political activity immediately prior to the November election. This proposal is expected to be studied by the Faculty Senate.

**Encouraging publication** of the Alestie, the student newspaper, on a daily basis, to combat rumors and what was called a lack of information. Editor Tim Middleton said what would begin doing so, adding "I'll start looking for the money to publish daily on Monday."

**A curriculum on peace** as an alternative to the 18 credit hours now given for Air Force ROTC courses.

**Must Protect University**  
Earlier, Chancellor John S. Rendleman had told the student-faculty group that "The University must protect very diligently against being used for

the political ends of one individual or one individual group."

"There are great moral issues on which the University as a voluntary community takes a position, but the University should not be used as a political arm or agency for any ideological group," Rendleman said. The chancellor said these issues suggest that the University have a single point of view do a disservice to the University. He warned against those who would "radicalize the University to achieve their particular point of view."

Rendleman described the University as a fragile instrument existing by the consent of the community. "It is not a police state, it is not a police campus," he said.

Summing up his own view on what had been learned during the series of convocations, the chancellor said, "I'd never try to keep the University operating with the National Guard or even with the Madison County sheriff's office or any other private police, because that isn't what a University should be."

**Work Within System**  
Student, faculty and staff spokesmen on the convocation panel agreed they had learned to "work within the system" of the University to achieve campus change.

"Our real problem is trying to educate our friends in the community on the purposes of the University," Leo Cohen, president of the Faculty Senate, said. Cohen criticized some of the press for drawing the conclusion that the University had closed at Edwardsville during the days devoted to the convocation series.

George Linden, president-elect of the Faculty Senate said "putting academics into question is not a tragedy, it is an opportunity. We have a common task of trying to eradicate

### SIU Fellowship Award For Mrs. Gusewelle

Mrs. Sharon S. Gusewelle of 3419 Pine street, was one of six students granted an SIU Fellowship for graduate work for 1970-71 year at SIU-SW campus.

Graduating this June at SIU-SW, Mrs. Gusewelle, majored in both French and English and will continue with her graduate work in English beginning September.

Ignorance and violence in the world.

Bill Spier, speaking for the Coalition, a campus group opposed to U.S. involvement in Vietnam and Cambodia, commended "all of the faculty" for their interest and concern and expressed optimism that faculty and students will be able to work together on problems.

During a question session from the floor of the University Center auditorium, Professor Charles Cor, chairman of the philosophy faculty, said there was no need "for the threat of violence on campus that leads to calling of outside force."
